DMG

(Dehbid Mines Group)

Mehrgostar National Cooperative Company, Khorram Bid began its operations in 2010 under the trade name ANG in 2022 , following the granting of exploitation rights for the Dehbid Mining Complex (Chah-Morghai), the company's brand identity was changed to DMG (Dehbid Mines Group). With the support of more than 45,000 shareholders from the honorable people of Khorram Bid, DMG is recognized as one of the pioneers in the country's dimension stone industry.

Our Strengths

- Experience and Expertise: Years of professional activity in the extraction and processing of dimension stones.
- Diversity of Mines: Operation of reputable quarries, including Chah-Morghai Dehbid Bone-Cream Marble, Sumer Dehbid Bone-Cream Marble, Angurek Dehbid Bone-Cream Marble, and Chah-Mari Dehbid Grey Marble.
- National and International Standing: Supplying construction stones to the domestic market and exporting to international markets.
- Social Capital: Relying on the trust and support of tens of thousands of shareholders.

Other Activities

- Operation of a fully equipped hotel in Safashahr.
- Operation of a grey stone quarry in Shourjistan, Abadeh.
- Construction of a 15 MW solar power plant.
- Construction of a 10,000 ton cold storage facility.

DMG, the Heart of Marble in the World

Mehrgostar Company, through specialized management, advanced machinery, and compliance with global standards, delivers superior quality and highly durable products to the market.

By establishing an efficient marketing network, cooperating with reputable domestic and international companies, and leveraging modern technology, the company has secured a special position in the stone industry.

Relying on longstanding experience in all stages of production, processing, and sales, Mehrgostar has always aimed to ensure the satisfaction of both domestic and international customers.

The variety of colors, textures, and sizes of Mehrgostar's quarry products meet a wide range of needs for construction projects, interior design, façades, and flooring.

DMG Mission

Our mission at DMG is the extraction, processing, and supply of building stones to both international and domestic markets.

We are committed to high-quality production, customer orientation, safe mining practices, and environmental protection.

Sustainable development, creating stable employment, and contributing to the economic growth of Khorram Bid County are among our top priorities.

DMG Vision

DMG aspires to become a distinguished name in the global stone industry.

By offering the highest quality products to both domestic and international markets, DMG will achieve an outstanding position in this sector.

To realize this vision, DMG focuses on investment in production, training specialists, adopting advanced technologies, and innovation in quarry management.

Chah-Morghai Dehbid Marble Quarry

The Chah-Morghai Dehbid quarry produces over 150,000 tons annually of unique Bone-Cream Marble, supplying both domestic stone-cutting factories and many foreign companies. This marble, known as Dehbid Marble in both domestic and international markets, is renowned for its elegant design, exceptional density, high hardness, excellent polishability, and unmatched durability. Its main customers are prestigious international companies, with China occupying a leading position among them. In global markets, this stone is introduced under the trade name Royal Botticino, and it has gained fame as one of the finest marbles in the world.

Physical Properties of Dehbid Marble

Abrasion Resistance mm	Flexural Strength Mpa	Modulus of Rupture Mpa	Compressive Strength Mpa	Water Absorption %	Density g/cm3	Trade Name
41.7	15.6	11.8	115.2	0.14	2.7	Royal Botticino

Sumer Dehbid Marble Quarry

Located adjacent to the Chah-Morghai quarry, the Sumer quarry shares many geological and quality characteristics with it.

The key distinction of this quarry lies in its unique patterns: while its base color is a cream tone similar to Chah-Morghai, it features distinctive designs.

Sumer Dehbid Marble Quarry

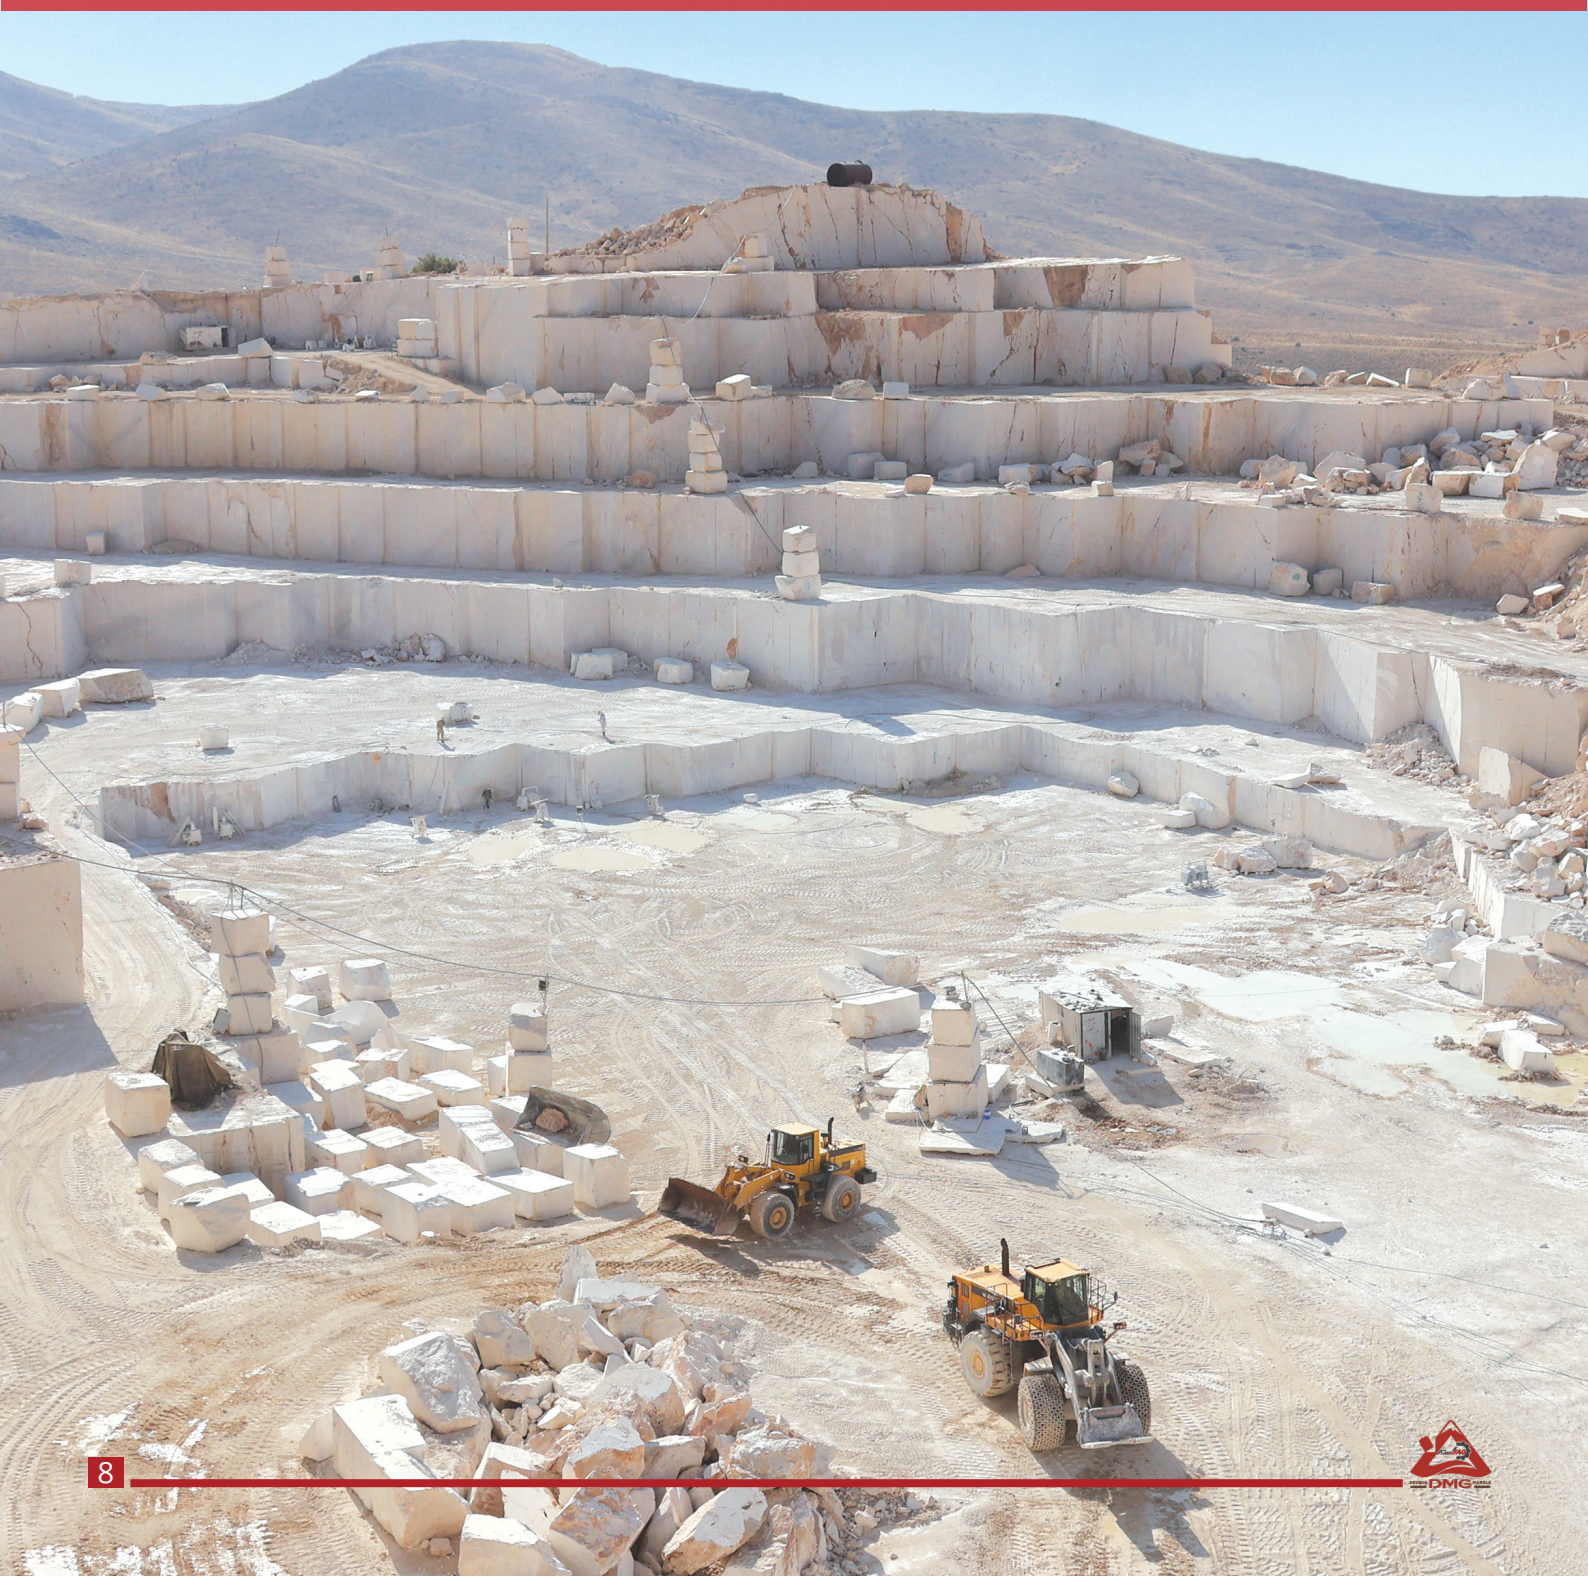

In global markets, this marble is known under the trade name B1. Thanks to its high density, excellent polishability, and attractive color, it is a popular choice for interior applications such as flooring, wall cladding, and stairs. Among Bone-Cream marbles, Sumer Marble stands out for its highly competitive price, making it especially appealing to both domestic and international customers.

Angurek Dehbid Marble Quarry

The Angurek quarry is one of the oldest and most important within the Dehbid Mining Complex. Mehrgostar began its operations here in 2010 under the trade name ANG, and the marble extracted from this quarry continues to be marketed under the same name, both domestically and internationally.

With an annual extraction capacity of 50,000 tons and reserves exceeding 850,000 tons, this quarry is a valuable source of Bone-Cream Marble in the region.

Angurek Dehbid Marble Quarry

The quarry operates with four active workshops, providing direct employment for more than 100 people. Angurek Marble stands out for its elegant cream color and availability in several distinctive patterns, giving it a special position in both domestic and international markets. Its most significant competitive advantage is its affordability.

Mehrgostar Export Stone Open Warehouse Site

DMC

Mehrgostar Open Warehouse Site has been constructed on a 4-hectare site and is recognized as one of the largest depots and stone distribution centers in the region. With its organized layout and compliance with modern standards, this facility enables the storage of a high volume of stone blocks.

At this yard, the stone blocks produced by the Dehbid Mining Complex are sorted by type, quality, and dimensions, and prepared for export auctions.

Its spacious area and easy access to transportation routes provide ideal conditions for quick selection and loading of products.

Given the large storage capacity and the variety of products, international customers can choose the best export options either through on-site visits or online auctions.

The Mehrgostar Yard stands as a symbol of the company's capability in fulfilling bulk orders and building trust in international markets.

Chah-Mari Dehbid Grey Marble Quarry

The Chah-Mari quarry, another valuable asset of Mehrgostar, is located adjacent to the Chah-Morghai quarry. Renowned for producing Grey Marble with striking white veins, it holds a special place among modern designers and architects. The marble from this quarry is processed into two distinct varieties, marketed under the trade names Galaxy Line Light and Galaxy Line Dark.

With its uniform texture, unique design, and polished surfaces, Chah-Mari Grey Marble lends a luxurious and modern appeal to interiors, making it an ideal choice for flooring, wall cladding, staircases, and both office and commercial spaces.

Mehrgostar Stone Processing Factory

The Mehrgostar stone processing factory is located in Phase 1 Industrial Town, Safashahr, Fars Province. Equipped with the most advanced machinery, it processes various types of building stones extracted from Mehrgostar's quarries into standard dimensions, slabs, and tiles.

Key Features:

- Annual production capacity: 80,000 m²
- Products: Slabs and tiles
- Factory area: 20,000 m²
- Employment capacity: 20 people

Participation in Domestic and International Exhibitions

DMG consistently takes part in both domestic and international exhibitions related to mining and the stone industry. The objectives of this participation include presenting the latest achievements, exchanging ideas with other producers, networking with industry and mining professionals, and signing contracts for stone sales and advanced equipment supply.

These activities strengthen DMG's position as an international brand and a leader in the stone industry.

Participation in Domestic and International Exhibitions

Tehran Exhibition 2025

Isfahan Exhibition 2025

Mehrgostar Hotel

Mehrgostar Hotel was inaugurated in 2023 in Safashahr and, in full compliance with international standards, offers a luxurious and delightful experience for travelers.

Located along the Safashahr-Shiraz axis, the hotel provides guests with a beautiful view of the city.

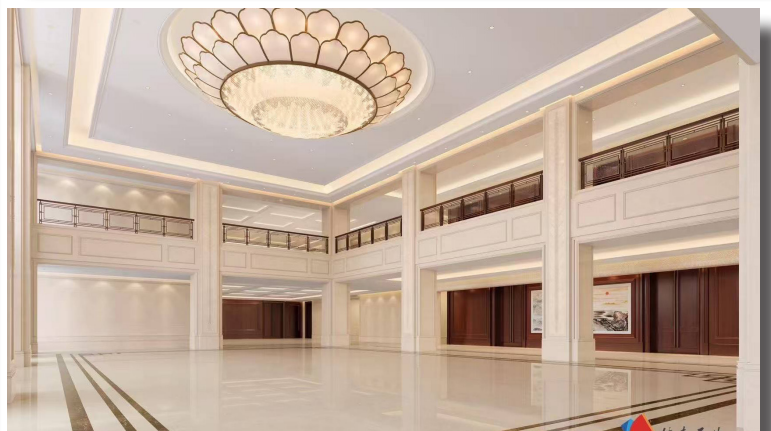

With its modern design and comprehensive facilities, Mehrgostar Hotel welcomes travelers, particularly domestic and international businesspeople in the stone industry.

Features:

- Area: 2,600 m² | Built-up area: 2,000 m² | Two floors
- Units: 3 suites (4 beds each), 12 double rooms
- Facilities: Laundry, lobby hall, restaurant, and conference hall
- Address: Safashahr – Isfahan-Shiraz Ring Road – next to the gas station
